Portfolio: portfolio-vert-rho-5tmceb1ex5.vercel.app

PROFESSIONAL SUMMARY

Motivated and enthusiastic Information Technology undergraduate with strong foundations in software development, web technologies, database management, Internet of Things (IoT), and machine learning. Skilled in developing full-stack applications, cloud-based solutions, and real-time monitoring systems. Passionate about solving real-world problems through technology and continuously improving technical expertise through projects, internships, and self-learning.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, JavaScript

Web Development: HTML, CSS, JavaScript, React.js, Node.js, JSP

Databases: MySQL, MongoDB

Cloud Platforms: OpenShift, Basic AWS Knowledge

Version Control: Git, GitHub

Networking: TCP/IP, DNS, HTTP

Tools & IDEs: VS Code, Postman, Google Colab, MongoDB Compass, MySQL Workbench, Chrome Developer Tools

Core Concepts: Object Oriented Programming, Database Management Systems, Computer Networks, Linux Operating System

PROJECTS

Temperature Monitoring System using Arduino IoT Cloud 2025

Arduino, ESP8266, DHT11 Sensor, Arduino IoT Cloud

- Designed and developed a real-time temperature monitoring system using ESP8266 and DHT11 sensor.
- Collected live temperature readings and transmitted data to Arduino IoT Cloud dashboard.
- Enabled remote monitoring through cloud connectivity and real-time visualization.
- Implemented automated monitoring features to improve reliability and efficiency.
- Gained practical experience in IoT communication, cloud integration, and sensor interfacing.

Bitcoin Price Prediction using Machine Learning 2025

Python, Pandas, NumPy, Scikit-Learn

Live Project

- Developed a machine learning application to predict future Bitcoin prices using historical market data.
- Performed data cleaning, preprocessing, feature engineering, and exploratory data analysis.
- Implemented Linear Regression and Random Forest algorithms for prediction tasks.
- Evaluated model performance using standard machine learning metrics.
- Improved understanding of predictive analytics and financial data modeling.

E-Commerce Shopping Cart Web Application 2026

React.js, Node.js, MongoDB

Live Project

- Built a full-stack e-commerce application with product listing and shopping cart functionality.
- Implemented user authentication and session management features.
- Developed responsive user interfaces using React.js.
- Integrated MongoDB database for storing user and product information.
- Connected frontend and backend services using REST APIs.

EDUCATION

Vidya Jyothi Institute of Technology

2023 – 2027

Bachelor of Technology (Information Technology)

CGPA: 8.82 / 10

Shaheen Junior College

2021 – 2023

Intermediate (MPC)

95.3%

Royale Mission High School

2021

Secondary School Certificate (SSC)

CGPA: 10/10

INTERNSHIPS & TRAINING

Google AI & Machine Learning Virtual Internship

Virtual Internship

- Learned core concepts of Artificial Intelligence and Machine Learning.
- Worked with real-world datasets and practical learning exercises.
- Explored machine learning workflows including data preprocessing and model building.

MERN Full Stack Development Virtual Internship

Virtual Internship

- Gained hands-on experience with MongoDB, Express.js, React.js, and Node.js.
- Developed web applications using modern full-stack development practices.
- Worked on frontend-backend integration and REST API development.

CERTIFICATIONS

- OpenShift Certification
- Python Programming Certification
- Java Programming Certification
- MySQL Certification
- Google AI & Machine Learning Virtual Internship Certificate
- MERN Full Stack Development Virtual Internship Certificate
- Linux Basics Certification

TECHNICAL STRENGTHS

- Programming and Problem Solving
- Full Stack Web Development
- Database Design and Management
- Machine Learning Fundamentals
- IoT System Development
- Cloud-Based Application Development
- Software Testing and Debugging
- Git and Version Control

ACHIEVEMENTS

- Maintained strong academic performance throughout B.Tech studies.
- Successfully completed multiple real-world projects in IoT, Web Development, and Machine Learning.
- Demonstrated continuous learning through certifications and virtual internships.
- Actively participated in technical learning activities and project-based development.

EXTRA-CURRICULAR ACTIVITIES

- Participated in technical workshops, seminars, and training sessions.
- Attended coding events, hackathons, and online developer communities.
- Engaged in project-based learning to strengthen practical technical skills.
- Continuously explore emerging technologies and industry trends.

PERSONAL TRAITS

- Quick Learner
- Problem Solver
- Team Player
- Adaptable and Flexible
- Strong Communication Skills
- Leadership Qualities
- Time Management
- Continuous Learning Mindset

PERSONAL DETAILS

- Nationality: Indian
- Marital Status: Single
- Languages Known: English, Hindi
- Address: Hyderabad, Telangana

DECLARATION

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.

Place: Hyderabad
